

Support in School from Providers

Introduction

As a school, we are open to any providers coming into school, or offering other ways of working with pupils in the school, to support our careers curriculum and our experiences of work that we offer. Due to the wide-ranging needs of the pupils across the school, any work with pupils will need to be bespoke for each class and each pupil. Information about the needs of our pupils can be found in the curriculum section. Information about planned Experiences of Workplaces that take place can be found in the PowerPoint below.

Essential skills providers can support us with

With the wide range of learners across the school, we are openly asking any providers that want to come and work with us, to support us in the 8 essential skills from Skill Builder. All our pupils in school can develop these skills at a level and in a way that they can access.

Additional areas providers can support us with

Important to know

As a school, it is important to us to develop links with providers who understand and embrace equality and equal access.
